December 2011

The news letter of the Young Leaders League

## SEASON'S GREETINGS FROM THE INTERNATIONAL LEADERSHIP FOUNDATION (ILF)

Dear partner and well-wisher; Happy New Year!

2011 has been a great year to us and we are glad to bring you news that marked this last month of 2011.

ILF Fights Against AIDS

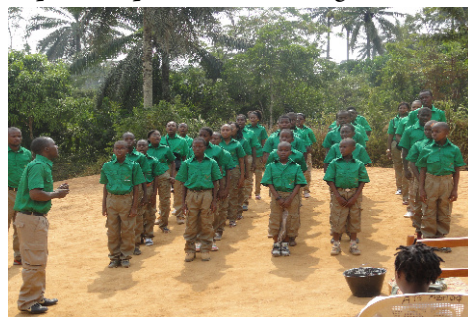

December 1<sup>st</sup> of every year is the World AIDS Day. This year, the Young Leaders League organized weeklong activities in all partner schools to sensitize youths on the dangers of AIDS, on ways to avoid contracting the disease, and on the necessity to co-operate and assist those who are suffering from AIDS and relevant diseases. For this purpose, ILF produced and distributed a special lesson chart with illustrative diagrams and self-explanatory notes.

Visit to Orphanage

The Young Leaders paid a one day visit to an orphanage in Nkoabang, Yaoundé. These youths, about 80 in number, saw this outing as an opportunity to practice servant leadership, generosity and love. Among other things, the young leaders organized themselves to wash the dirty

clothes of their pals, clean the environment, wash the beddings, split wood, and repaint the buildings. It was equally a time to play, chat, dine and make new friends. It was a great encounter to both the young leaders and the pals in the orphanage. As true pals, after exchanging gifts and contacts, they were sorry to depart and promised to visit again.

Welcoming New Young Leaders

This month, the Young Leaders of "les SAPINS" and "IPONI" high schools, who passed the selection and recruitment test that was organized last November 2011, have been fully integrated in the Young Leaders club. During their integration ceremony, they vowed to be exemplary in all they do, and to incarnate the moral values and principles that are taught in the Young Leaders Clubs.

LADS Orientation and Harmonization

The LADS are breaking virgin grounds. This month, the Leadership and Development Studies was launched in the Anglophone Section of the IPONI high school and students are enthusiastic about

this new subject. The LADS Department is steadily advancing in its programme for the 2011/2012 academic year. The picture above shows members of this department in a recent orientation and harmonization working session.

End of Year Fellowship

The Leadership of ILF organized an end of year fellowship at the residence of the ILF Representative. It was a festive and joyous event where ILF staff, well-wishers and family members came together to celebrate and thank God for the accomplishments and challenges of ILF in 2011.

Dear partner and well-wisher, ILF is grateful to you for your partnership and support. If 2011 has been a wonderful year to us, it is because you stood by us. Once more, we wish you a **Happy New Year!**
