The news letter of the Young Leaders League

## IF THE LORD DOES NOT WATCH, HE THAT WATCHES DOES SO IN VAIN

Dear friends and partners do accept warm greetings from the International Leadership Foundation.

We are glad to keep you informed about activities that occurred at ILF in October 2012.

On 5 October 2012, International Teachers' Day, students of College la Victoire and IPONI showed gratitude to their teachers in a poem highlighting the central role they play in their education.

After a lesson on integrity at College la Victoire, the teachers, trainers and students felt even more motivated to carry on with their annual Leadership and Development Studies (LADS) programs. In support to the classroom lesson, trainers of the young leaders club of the college projected a film on Wednesday 17 October emphasizing the training of a leader through character transformation.

The film presented a model honest leader courageously facing integrity challenges and succeeding in all activities.

Wednesday 17 October 2012 witnessed the official launch of clubs at college les Sapins. This event brought the rich cultural knowhow of students of the college to public view. The young leaders club (*Always upright, Always serve*) made a brilliant show of dynamism and devotion to service.
