

YOUNG LEADERS FLASH

September 2013

Young Leaders Newsletter

YOUNG EQUIPPED, CAPABLE OF LEADING TRANSFORMATION

Dear friends and partners, kindly receive warm greetings from the International Leadership Foundation and the Young Leader's League.

It's always a pleasure to inform you of our activities and thank you for your continued support.

ILF MISSION FOR 2013-2014

At the beginning of this academic year 2013-2014, ILF renewed its engagement to equip the young so that they are capable of leading a positive transformation at the personal, as well as, at the societal level. Below are some few indicators describing the personal transformation process of youths .

- From a self-negative image to a positive identity
- From cheating to integrity
- From mediocrity to excellence
- From ignorance to a knowledge of the true value of African resources
- From the under-use of their gift to its optimal exploitation
- From a mentality of consumption to a mentality of production,
- From individualism to a deep sense of community
- From the exploitation of, to the protection of the weak
- From exclusion to the integration of women in leadership

Our vision is to have youths referred to as (3C): **Competent, Confident and Connected.**

1. **Competent:** In Leadership, in practical aptitudes and fearing-God.

2. **Confident:** In taking initiatives, in self-identity.

3. **Connected :** To issues of their communities.

To develop the youths in the domains mentioned above, we shall use the following activities and materials:

1. Lessons of leadership
2. Young Leaders clubs
3. Practical workshops
4. Transformation Project

In developing youths in a proactive manner so that they become honest leaders, confident, having a mentality of abundance and of excellence, we are building a foundation for a strong and prosperous Africa.

STUDENT MOBILIZATION FOR 2013-2014

In partnership institutions, the teaching of the Leadership and Development Studies course "LADS" has effectively started by an introductory class followed by a class on time management. But the main activity during this first month was the sensitization and the mobilization of students by workshops, tutors and club coaches. This sensitization gave our coaches the opportunity to present various clubs' activities to students. Club workshop tutors also presented the specific learning activities of their various workshops. **College IPONI** has mobilized more than 100 students for four workshops: knitting, gardening, bamboo arts and craft, and banana leaves arts and crafts. **College les Sapins** mobilized 50 students for workshops on rearing, theatre, cooking, and decoration.

The **College La Victoire** was not

left out; it mobilized 70 students for workshops on Photography, Drawing

WORKSHOPS AT THE COLLEGE LA VICTOIRE

and Serigraphy. The students have been challenged to produce something on their own before the end of year, with the help of their tutors. Though we observe much enthusiasm and big numbers at the beginning, we are expecting to have a more stable participation by the middle of the first term. We shall then have a steady number of students in various clubs and workshops.
